Dear Oluwafemi Daniel Olusoji,

Congratulations! Your abstract for a **contributed talk** has been accepted for the 2019 ESA/USSEE Joint Meeting in Louisville, Kentucky.

Abstract ID#: 79406

Password: 448813

Abstract Title: "Measuring intraspecific diversity: a critical assessment of methods"

### Editing Your Abstract

Abstract editing is now available. You may edit your abstract through Wednesday, May 1 at 5:00 pm Eastern Time (2:00 PM Pacific).

We allow authors to make minor changes to accepted abstracts. This includes changes such as refining language for clarity, updating results to reflect more recent findings, rewording the title, and editing the coauthor list. Please do not change the overall topic of the abstract or the study to be presented. We will check all revised abstracts once the editing window is closed.

If you can no longer present on the same topic or study as you submitted initially but would still like to present at the meeting, then withdrawing the current abstract and submitting a new one for the Latebreaking Poster session is the appropriate way to handle that situation. The deadline to submit a Latebreaking Poster abstract is Thursday, May 2nd.

Attention students! This is your final opportunity to edit your coauthor list. Please make sure important names (i.e. your advisor) appear as they should in the program. We will be unable to edit coauthors after the editing period has ended.

### How to Edit Your Abstract

1. Please follow the first link to VIEW your abstract as it will appear in the preliminary program:

[http://eco.confex.com/eco/2019/preliminaryprogram/abstract\\_79406.htm](http://eco.confex.com/eco/2019/preliminaryprogram/abstract_79406.htm)

2. If you need to edit your abstract, follow the second link below to do so.

<http://eco.confex.com/eco/2019/cop/extra/index.cgi?EntryType=Paper&username=79406&password=448813>

Changes will not appear at the preliminary preview (the first link) right away, but rest assured any changes that you make using the editing interface will appear in the preliminary program the next time we update the website (usually within a day or two).

### Cancellation Deadline

This is a reminder that the deadline to cancel your presentation without risk of penalty is May 1.

ESA is unable to provide financial support to speakers. If you cannot travel to present in person, you should cancel this abstract before May 1. We encourage you to cancel by May 1 or plan for an alternate presenter if there is strong uncertainty about your attendance. If you become aware that you will be unable to attend after May 1, we encourage you to find a substitute presenter if possible.

If you cancel after May 1, it causes gaps in the final program, which are a serious disruption for attendees. For this reason, you may be subject to the penalty listed in the original call for abstracts, which is a \$50 penalty for late cancellations.

There is a potential one year presentation ban for no shows (failing to appear for your scheduled presentation at the meeting, without any notice provided). For more information, visit: <https://esa.org/louisville/cancellations/>

Please notify Jennifer Riem ([jennifer@esa.org](mailto:jennifer@esa.org)) as soon as possible if you need to cancel your presentation.

### Abstract Scheduling

We will begin scheduling immediately after the May 1 cancellation deadline has passed. Due to the very complicated nature of scheduling, we cannot honor any scheduling requests. All speakers will be notified of their session date and time by May 23. Contributed talks may be scheduled Monday afternoon through Friday morning. There is a 1 in 8 chance of being scheduled for a particular timeslot. Please plan accordingly.

### One Presentation Rule

In order to broaden participation, you may give only ONE presentation (any talk or poster that includes an abstract) at the meeting unless one of your presentations is primarily about education or outreach. Inspire ESA presentations are exempt from this rule for 2019.

### Meeting Registration

Meeting registration and housing are now available through the meeting website: <https://esa.org/louisville>. The deadline to register at the Early Bird rate is Thursday, June 27.

All presenters must register to attend the meeting by completing a meeting registration form and paying the applicable fees. Please note that abstract submission does not register you for the conference. Registration is a separate process. Registration is not waived or reduced for presenters. One of the benefits of ESA membership is lower registration rates for the Annual Meeting.

Please contact Maya Sohn ([registrar@esa.org](mailto:registrar@esa.org)) with any specific questions about registration.

### International Attendees

If you require a letter of invitation, you may print an automatically generated letter at your convenience by following this link and scrolling to the bottom of the page: <http://eco.confex.com/eco/2019/cop/extra/index.cgi?EntryType=Paper&username=79406&password=448813>

If your institution requires more specific language in the letter, please contact Maya Sohn ([registrar@esa.org](mailto:registrar@esa.org)).

If you have other questions about visas, we have additional information here that you may find helpful. <https://esa.org/louisville/letter-of-invitation-visa-information/>

Congratulations on your acceptance. Please let us know if you have any questions. We look forward to your participation this year!

Daniel,

Congratulations, and you should apply as soon as possible (3 months before leaving) for a travel grant from FWO or the FNRS. See <https://www.fwo.be/en/fellowships-funding/international-mobility/outgoing-mobility/grant-for-participation-in-a-conference-abroad/>

However, Frederik, I think Daniel should apply at FNRS, as his official affiliation is at Namur?

Kind regards - Vriendelijke groeten, Marc Aerts

Hello Marc,

I read through the requirements and it appears I don't qualify for the grant based on two reasons;

1) For participation in a conference in Europe, you need to have at least one peer-reviewed publication. For participation in a conference outside Europe, you should preferably already have three or more accepted peer-reviewed publications.

2) In case you already receive a bench fee within a granted mandate or fellowship, you cannot apply for a travel grant for a conference, short study visit or participation in a workshop/course in one of the member states of the EEA or Switzerland, since this bench fee can be used for these purposes.

I could still give it a try though, what do you think about this?

Regards,  
Daniel

Hi Daniel,

It is indeed not possible to obtain a travel grant from FWO if you don't have a published paper. I am however not sure if there are other routes to explore. You might ask Sarah Vercruysse or Nele Nivelles from UHasselt if they know other possibilities.

Cheers,

Thomas
